Letter from School Administrative Council (AC)

Dear Parents/guardian,

SAN YU ADVENTIST SCHOOL
三育中小学

School to Implement One Day of Home-Based Learning a Week

In response to the MOE's latest plan to support further safe distancing by having schools progressively transiting to a blended learning model, starting with one day of Home-Based Learning (HBL) a week, the following arrangement will take place in SYAS:

- Co-Curricular Activities will be cancelled for the rest of the year. However, they will be replaced with enrichment activities when the situation improves.
- Commencing from this upcoming Friday, our primary school, as well as secondary school, will conduct one day of HBL on the following dates: 3 April, 17 April and 24 April until the mid-year examination takes place.

The HBL will be assigned by all the subject teachers whose lessons are scheduled in the school timetable for the class of your child/ward, on every Friday. All students are required to complete all the task activities during the scheduled HBL days.

Level	Online Learning Portal	Task Activities
Primary & Secondary	lms.asknlearn.com/syas	lessons, quizzes and assignments
Primary & Secondary	https://www.ace-learning.com/	Mathematics
Primary	www.ezhishi.net	Chinese Language
Primary & Secondary	More details will be provided by respective teachers	video-conferencing for 'live streaming' of lessons

Students who do not have computers and Internet access at home and would like to use the school computers to complete their assignments, **must** indicate on the acknowledgement slip below. To expedite a smooth operation, only students who have responded that they will be using the school computers will have access to them. Please take note that students would need to wear their school uniforms when they report to the computer lab during the HBL days.

HBL will not be able to fully replace the depth and variety of learning experiences that our students derive from being physically present in school. We are also conscious that moving to HBL will have impact on many parents and families, especially those without good home support. Hence, we want to progressively introduce HBL, so as to allow both our students and parents to be better prepared should the situation call for more days of HBL. We seek your understanding and support in helping us provide our students with the exposure to independent learning so that in the event when there is a necessity to stay quarantined at home, learning can still be facilitated.

Thank you.

Yours sincerely,

Esther Ng
